Julianne,

Della suggested that I contact you.

I am a superior court prosecutor in Bristol County. I primarily prosecute drug cases and I have had Della testify on several of my cases. With the change in the law that now requires that chemists come to court, understanding what chemists do and knowing how to appropriately question chemist is becoming a topic for training. The DA's Office is scheduling an in-house training for Superior Court prosecutors on 04/29 in Fall River. It would greatly benefit Bristol County prosecutors if Della and Annie could come and give a presentation to our office. Specifically, an overview of how drugs are tested, the difference between preliminary and confirmatory testing, the equipment used to perform the testing, a discussion on representative sampling, understanding lab discovery, and a session of mock direct examination would be very helpful.

If your office is able to assist the DA's Office during our in-house training day, I would greatly appreciate it. I am available via email or telephone to discuss this request.

Sincerely,

Garrett
